

Speak to a member of the burn care team to find out the answers to the following questions:

Who will perform the procedure?

Where will it be carried out?

How long is it likely to take?

What kind of sedation or anaesthesia will be used?

Which parts of the procedure will be painful or frightening for your child?

What will be done to manage their discomfort or anxiety?

How can you best prepare your child to be relaxed?

Will you be able to stay with your child?

Will your child need any special medication?

Where will you get these (hospital or pharmacy)?

Is your child likely to experience any side effects?
